PROFILE

Software Engineer with hands-on, full-stack experience gained through a one-year traineeship at Toyota Lanka (Pvt) Ltd, where responsibilities spanned independently developing a new enterprise web application, delivering innovative internal software solutions, and handling bug fixes and change requests across live production systems. Strong foundation in JavaScript/TypeScript and Python, with hands-on experience across React, Next.js, NestJS, and Express.js, combined with a solid grounding in Java, C#, and object-oriented design. Currently completing a BSc (Hons) in Data Science, bringing an added interest in analytics and data-driven approaches to software problems. Seeking a Software Engineer role to contribute to impactful, real-world development projects.

WORK EXPERIENCE

Trainee Software Developer (Full-Stack) — Toyota Lanka (Pvt) Ltd

July 2025 – July 2026

- Independently designed and developed CCMS (Credit Card Management System) end-to-end, an internal enterprise application supporting role-based access for Admin, Officer, and Viewer users.
- Part of the team behind new, innovative software web applications delivered for Toyota Lanka, contributing fresh ideas and full-stack implementation from concept to deployment.
- Worked on the MBO-BSC Appraisal System, supporting performance management workflows across the organisation.
- Developed features for the company Intranet Portal, used company-wide for internal communication and resources.
- Contributed to Toyota CRM, a sales visit tracking application used by field sales staff.
- Carried out bug fixes and change requests on the AutoStream platform and Toyota TyreZone, maintaining and improving live systems in a production environment.
- Worked across the stack using React and Next.js on the frontend and NestJS/Express.js on the backend, with MySQL for data persistence.
- Collaborated within an Agile team, using Git and GitHub for version control and code review.

EDUCATION

BSc (Hons) in Data Science — ICBT Campus (affiliated with Cardiff Metropolitan University) 2024 – Present (Final Year)

Higher Diploma in Software Engineering — ICBT Campus 2022 – 2024

G.C.E. Advanced Level — Commerce Stream (English Medium) — De Mazenod College, Kandana

- Accounting — A | Business Studies — C | ICT — B | General English — A

TECHNICAL SKILLS

- Programming Languages: JavaScript/TypeScript, Python, Java, C#, C++, R
- Web Development: React, Next.js, NestJS, Express.js, HTML, CSS
- Databases: MySQL, PostgreSQL/PostGIS
- Data Science & Machine Learning: Regression Analysis, Social Network Analysis (igraph), Time Series Forecasting (ARIMA/SARIMAX, LSTM), Random Forest, XGBoost, SHAP Explainability, Feature Engineering
- GIS & BI Tools: QGIS, Power BI
- Software Development: Agile Methodologies, Object-Oriented Programming (OOP)
- Version Control: Git, GitHub
- Mobile Development: Android SDK

PERSONAL PROJECTS

- Petiverse Project — github.com/MalmEEE/Petiverse
- Blockchain Based Food Supply Chain Tracker - <https://github.com/MalmEEE/Blockchain-Based-Food-Supply-Chain-Tracker>
- SmartTeaAI - <https://github.com/MalmEEE/SmartTeaAI>
- Gallery Cafe Web Application — github.com/MalmEEE/Gallery_Cafe
- TechFix Procurement Services Application (ASP.NET) — github.com/MalmEEE/TechFix
- Library Management System (RESTful API + React frontend) — github.com/MalmEEE/library-management-system
- Personal Portfolio (ReactJs) — github.com/MalmEEE/MyPortfolio

SOFT SKILLS

- Time Management | Communication | Critical Thinking | Leadership | Mentoring

LANGUAGES

- English (Fluent) | Sinhala (Fluent)
